- Students
- Survivors
- Women
- Youth/Adolescents/ Young Adult

Products

Resource: Intervention and outreach toolkit for homeless LGBT youth and conversation deck

System:

Advocacy/rape crisis
Therapeutic/mental health

Level:

Local

Enhance Partnerships

Partnered with Wind Youth Services and the Sacramento LGBT Community Center on this project.

Provide Resources

WEAVE sought to reach 20-30 unique youth throughout the grant year. Due to the drop-in nature of the space, WEAVE achieved 200 duplicated youth participating throughout the year. Additionally, WEAVE created an intervention/outreach toolkit for homeless LGBT youth with an action kit on best practices and art intervention strategies, and a conversation deck on discussing sexual exploitation and violence.

Measured Impact

Data was collected via survey and focus groups to identify themes and barriers to youth at risk-for or who had experience sexual exploitation and violence to receive services.

What's next:

WEAVE continues to further this project through community foundation support and funding for drop-in art groups at both the Sacramento LGBT Center and WIND Youth Services.
